

## Family-Centered Care from a Family-Owned Agency.

Infinity Care Services knows that one of the things that makes a house a “home” is the family inside the four walls. When we are recovering from an illness or a surgery or adapting to a new disability, we want to be home with our families. As we age, family becomes increasingly important and precious.

That’s why our family is committed to the health and wellbeing of yours. We serve northern California with home health and non-medical home care services designed to meet a range of healthcare needs.

Our commitment to better lives for families everywhere extends even beyond our community. Infinity Care Services helps support the building of schools in Africa.
